Referring your patient for a clinical trial

When to consider

- ✓ Early in care journey
- ✓ Inadequate treatment response
- ✓ Limited available options
- ✓ Specialist referral is appropriate
- ✓ Patient interest in new approaches

Initiate conversation and discuss

- ✓ Support informed decision
- ✓ Address patient's concerns

How to refer

1. Identify potentially relevant clinical trial opportunities and acquire contact details
   - www.sanofi.com/en/clinical-trials
   - www.ClinicalTrials.gov
2. Contact your local hospital to learn about active trials
3. Your patient may contact trial centres directly where appropriate

Required information for referral includes:

- Patient name
- Contact details
- Diagnosis
- Referring GP details

What happens after referral

Your patient

Meets a member of the research site team

Provides informed consent

Completes screening tests to determine eligibility

The research site team assess eligibility according to protocol-defined criteria.

Participation is voluntary, and participants may withdraw from a clinical trial at any time.

Your role

You may receive

- Referral receipt
- Screening outcome
- Enrolment status
- Clinical updates

You may support your patient throughout their clinical trial journey by

- Providing ongoing routine care
- Managing general health and comorbidities
- Addressing patient questions or concerns
- Supporting continuity of care alongside the trial team

Not sure if your patient is eligible?

Contact the research site team for pre-referral discussion.
