MyStar Support
 Beyond Patient Support

**DIGITAL PATIENT
 SUPPORT PROGRAM**

A novel solution for your patients to support them in achieving therapeutic and disease goals.

Diabetes Prevalence in Gulf region is considered one of the highest across the globe with significant number of diagnosed patients who do not achieve optimal results. With digital empowerment era, there is a need to offer our patients a comprehensive solution which will relieve disease burden on patients and their families.

That's why, at Sanofi, we are launching Digital Patient Support Program to provide you a tool for your patients and support them in their diabetes journey.

☆ What makes the Digital Patient Support Program unique?

The Digital Patient Support Program is a new solution providing novel and innovative support and tool for patients living with diabetes. Here is why you should apply and enroll your patients.

Apply only once

Fill in the inquiry form and Sanofi representative will get in touch with you or sign the consent form received by Sanofi representative

Enroll your eligible patients in one step

The enrollment process can be fully digital with immediate support of Patient Care Coach

Receive access to patient progress and reports

HCP Platform is available to track progress of your patients; you will receive monthly reports from Care Coach and timely support

☆ Which patients are eligible to be part of the program?

Digital Patient Support Program has been designed to support all your patients that:

- Have been diagnosed with Diabetes Type 1 or
- Have been diagnosed with Diabetes Type 2
- Patients that are on Sanofi products, Toujeo or Soliqua

☆ Patient application for education and support at their comfort and HCP Platform for your visibility and tracking your patients' progress.

Watch Videos and learn more about the Program by scanning the QR code or visiting Campus Sanofi at campus.sanofi

☆ Your enrollment takes only a few simple steps:
