

The RDU Is a Free, Online, Expert-Led Educational Platform for HCPs With Varied Levels of Expertise in Rare Diseases

The RDU is intended for HCPs who are committed to advancing their knowledge and leadership in rare diseases and their clinical management

Be part of creating an **expanding worldwide network** of HCPs from multiple specialties

Comprehensive modules lay the disease and clinical management groundwork. **Diverse topics** include genetics, diagnosis, and clinical management

Multimedia resources, including infographics, videos, and interactive timelines, bring the content to life

Fabry disease, ASMD, Gaucher disease and **MPS 1** programs are currently*available. More rare disease programs will be coming very soon!

Podcasts and **webinars** provide clinical insights and the patient perspective. Case studies and videos display **real-life examples**

Translations into local language will also be supported on the RDU
